Education

- Rochester Institute of Technology**, BS in Software Engineering Aug 2023 – May 2028
- **Coursework:** Web Engineering, Intro to Software Engineering, Applied Statistics, Discrete Math, Mechanics of Programming, University Physics I
- Community College of Rhode Island**, Dual Enrollment Aug 2022 – May 2023
- GPA: 4.0/4.0
 - **Coursework:** Object Oriented Programming, Programming Concepts, Scientific Programming

Experience

- Embedded Software Engineering Intern**, GTRI-ELSYS-OSDB – Atlanta, GA January 2025 – May 2025
- Developed testing software for embedded systems using C and AltaAPI to validate functionality and performance of radar devices.
 - Assisted in the development of SOSA-aligned ACT software using Python, contributing to modular open standards
 - Gained hands-on experience in hardware and software prototyping, working in a fast-paced research environment with complex, multi-component systems

Projects

- Phi Delta Theta NY Eta Website** phideltnyh.com
- **Engineered** and deployed a professional organizational website using **HTML5**, **CSS3**, and vanilla **JavaScript** to establish a central digital presence for the chapter, targeting recruitment, event promotion, and alumni relations.
 - **Managed** the front-end development life cycle for core organizational features, including **Chapter Roll** and **Contact** components, significantly streamlining the process of sharing real-time chapter updates.
 - **Optimized** site performance through efficient code structure and asset management (e.g., image compression and CSS optimization), resulting in a measurable improvement in page load times and overall site speed.
- Rugby Prediction model** github/Intl-Rugby-Data
- **Developed and built** a **Machine Learning** model in **Python** to predict international rugby match outcomes, demonstrating proficiency in **predictive modeling** and sports analytics.
 - **Engineered** a robust dataset by performing extensive **data cleaning** and feature extraction on raw rugby statistics (including team performance, historical scores, and location factors).
 - **Implemented** a structured data science pipeline, utilizing standard libraries (**Pandas**, **NumPy**, **Scikit-learn**).

Skills

Languages: C++, C, Java, Python, SQL, JavaScript, HTML/CSS
Technologies: Node.js, AWS, Git, ALTA API, Springboot, React, PostgreSQL
Methodologies: Agile, SCRUM

Outside Involvement

- **Phi Delta Theta Fraternity**, Vice President '25-'26, Service Chairman '24-'25
- **Student Government**, Facilities, Parking, Transportation, and Sustainability Committee Chair '25-'26
- **Club Rugby**, Liberty Conference DII
